Limited separation between work and life, unmanageable workloads, job security concerns and lack of control over work have all been cited as reasons behind this dramatic increase. As we find ourselves searching for a clearly delineated ‘fresh start moment’ to give us a renewed sense of motivation and re-energise us to pursue our goals, we soon realise that this moment may not naturally exist. Instead, we must create our own ‘fresh start moments’ as we move into the ongoing uncertainty of COVID and continue to protect and promote our mental health and well-being.</p> <p>This session will focus on recognising the signs and symptoms of workforce exhaustion and understanding its causes. It will provide practical strategies that you can use to combat exhaustion and create your own fresh start moment.</p>
