

# The pillars of integrity

Integrity Systems: Conceiving, Describing, Assessing Dr AJ Brown and Dr John Uhr, 2004

### **Integrity issues – Central Goldfields**

#### Key findings:

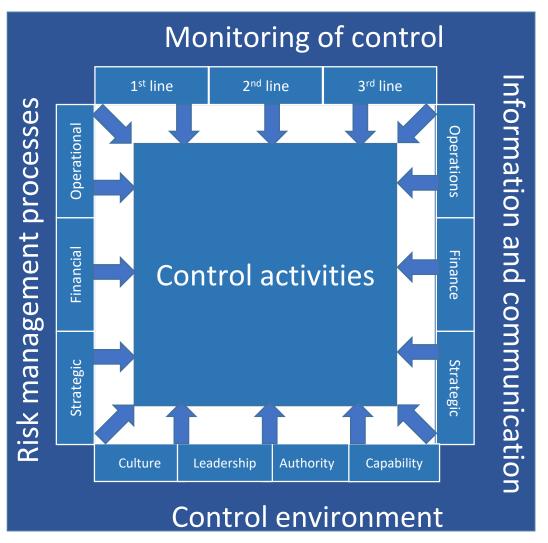

- council's lack of internal controls.
- 'red flags' signalling internal control breakdown
- inadequate policies and procedures
- overall lack of respect for compliance

#### Key <u>learnings</u>:

- commitment to integrity and ethical values
- Individual to be held accountable for their internal control responsibilities
- governing body to exercise oversight of internal controls and demonstrate independence from management
- emphasis on appropriate governance policies and procedures

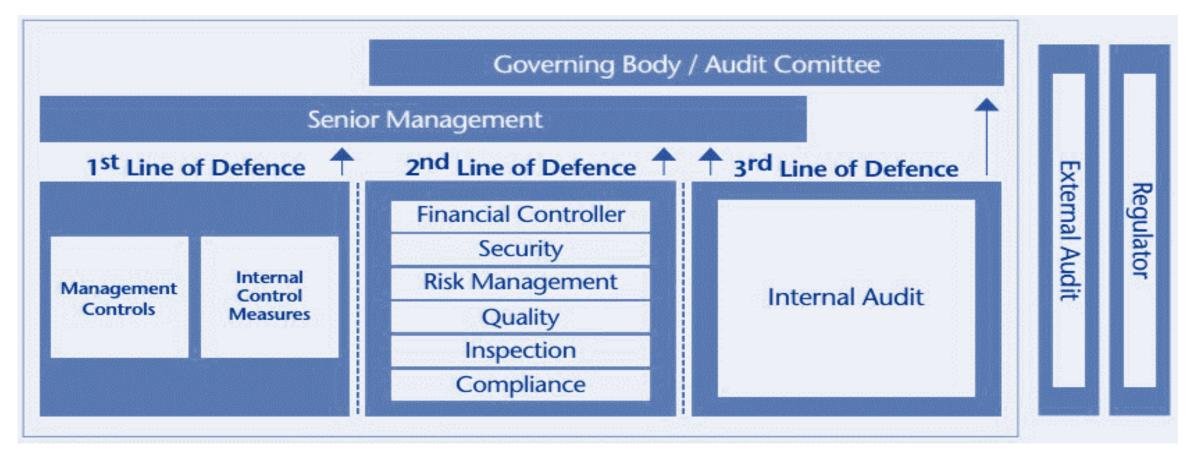

#### **Control objectives**

- Efficient and effective operations
- Reliable financial reporting
- Compliance with laws

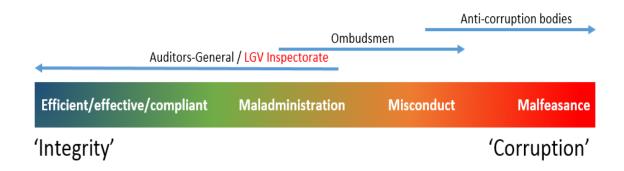

Adapted from the COSO Internal Control Framework

#### Lines of defence

# **Role of integrity bodies**

- VAGO can play a part by including regular analysis of financial and non-financial data from the sector to monitor 'red flags' as part of external audit process.
- Through data analysis, VAGO can provide councils with <u>unique</u> <u>insights</u> and other information that can be used <u>to improve public</u> <u>services</u>.

### **Opportunities and challenges**

#### Reporting frameworks

- Financial:
  - re-examine content and financial reporting processes/timeliness
  - assess impact of accounting standards (leases, revenue & income of NFPs)
  - improve related party disclosures and supporting processes
- Performance:
  - benchmark targets
  - quality control
  - relevance and appropriateness

#### Related party disclosures

Sector responded reasonably well to first time application of AASB 124 Subsidiaries Associates Disclosures varied between cohorts (regional vs metro) as expected **Entities**  Joint ventures Others Materiality considerations as an area to improve on Key management Council personnel ("KMP") Persons Close family members of KMP's Entities controlled or Other jointly controlled by entities related persons

#### **Performance statements**

- Third year of reporting.
- Sector to consider the need for <u>'targets'</u> to help benchmark performance better.
- LGPRF Interpretation issues trending down.
- Quality control requirements highlighted through VAGO management letters.
- Relevance of indicators and quality of the commentary will be a focus area in the future.

### **Opportunities and challenges**

#### Control frameworks

- Audit committees and internal audit effectiveness
- IT risks and mitigation strategies (including cyber security risks).
- Potential for continuous audit regime under National Disaster Relief and Recovery Arrangements ('NDRRA') framework
